EMPLOYMENT AT A GLANCE...

There were 77,127 residents employed in Q3 16, an increase of 1,098 jobs from the previous quarter.

Over the past two years, employment has increased seven of eight quarters.

Employment is 4.3% or 3,481 jobs away from recovering back to our pre-recession level of Q1 08.

Q3 employment has increased every year since Q3 12.

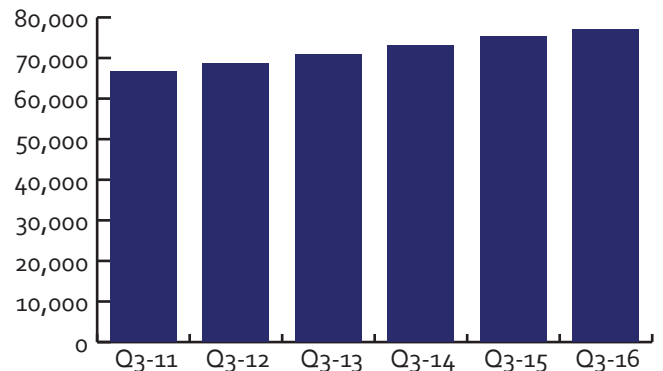

3RD QUARTER TREND

Q3 16 Employment figures for CORONA ranked at the fifth highest level since the index started in Q1 08. There were a total of 77,127 residents employed in Q3 16, up 1,098 more jobs or 1.5% from the previous quarter.

Compared to just two years ago, there are now 4,078 more CORONA residents employed. Current levels are just 4.3% away from a full recovery back to pre-recession levels of Q1 08 when there were over 80,600 residents employed after seasonal adjustment.

CORONA's employment has noticed a strong and consistent increase since the recession low of Q1 10. We expect this upward trend to continue with stable employment figures considering all reasonable economic factors.

Q3 EMPLOYMENT SINCE RECESSION LOWS

Total increase of 15.8%
